

CURRENT BACK OF TRUCK

Changes to current set up

- Remove hose reel compartment
- Replace steps with folding ladder
- Relocate scene lights
- Remove ladder and hard suction hose compartment

PROPOSED BACK OF TRUCK (example only)

- Replace aluminum tank with Poly tank (tank will not be exposed to elements – Dry side build design)
- Relocate traffic advisor and back up camera
- Replace hard covers with vinyl black tarp (old covers do not fit new body)
- Add Max Vision tank level gauge
